

FIND MY RING SIZE

1. Use a ring that fits you comfortably.
2. Place your ring over the circles below.
The inside edge of your ring should be as close as possible to the inside of the circle.
You should still be able to see the black outline of the circle inside the ring.
3. If your ring is in between we offer quarter sizes!

NOTES:

We size our rings with **standard US fashion sizing**. If you previously determined your ring size at a bridal jeweler our pieces may fit a little different than what you are used to. Since bridal jewelry is not meant to be removed often it is sized on the small side.

Our sets of **five or more rings are each made a quarter size larger** than specified at checkout. This helps the rings fit a little more true to size when they are stacked together.

We are happy to mail you a ring sizer free of charge if you live within the US (or for a small fee internationally).

Let us know your mailing address via e-mail and we can send one out the same business day!
