IMPORTANT NOTES:

SIZE SCALE: Standard US Fashion Ring Sizing

Only fractions of a millimeter separate each ring size (especially between quarter sizes).

If you determined your ring size with a bridal jeweler, our pieces may not fit the way you intend. We do not recommend using this sheet with your wedding or engagement ring.

PLEASE FOLLOW THE INSTRUCTIONS CAREFULLY

INSTRUCTIONS:

PRINTING

This size guide is scaled to **8.5" x 11" (US Letter) paper**. Check your printer settings to make sure it is set to print **actual size/100%** (NOT scaled to fit). Any alternate paper sizes or customized printer settings will result in an incorrect measurement.

①

CHOOSE A RING THAT FITS COMFORTABLY ON THE FINGER YOU INTEND TO BUY FOR.

- Your ring should be **similar in style and width to the ring you are interested in purchasing.**
- This chart works best with stacking rings under 3 mm in width.
- We recommend an **at home ring size kit** to size for our Interlocking, Shield, Wraparound and other bold ring styles.

②

PLACE YOUR RING OVER THE CIRCLES.

- The inside edge of your ring should be as close as possible to the exterior of the circle.
- **You should be able to see the black outline of the circle inside the ring.**

③

IF YOU ARE IN BETWEEN SIZES, WE RECOMMEND ROUNDING THE SIZE UP.

- We also offer quarter sizes!
